Money doesn't grow on trees...

Imagine if it did. We would all become farmers, one of the hardest jobs out there. The world would stop, because there would be no one left to stock store shelves, create new technologies, deliver goods, teach our children or fix our roads.

Money makes the world go 'round, and the work of millions each and every day keeps the economy going. And from this comes countless stories of everyday life in the workplace, those water-cooler tales of silliness and surprises shared with fellow workers.

That's what you'll find in this book, stories from the trenches of working stiffs near and far. From hair dressers to teachers, steel workers to even a happy hooker, you'll learn that money doesn't grow on trees, but is earned through hard work...and laughter along the way.
